### The Challenge

Before April 2022, Seema, a 42-year-old from a modest neighbourhood in New Delhi, struggled to make ends meet and had no savings. Her confidence was low, and she felt powerless to improve her family's financial situation — a cycle that seemed impossible to break.

### The Turning Point

Everything changed when she joined **SHUBH Trust** — an organization offering skill development courses. Determined to improve her life, Seema enrolled in a stitching course, learning to create lehengas, gowns, and blouses from scratch.
